AH3.0 SEEDING RANKING FROM PREVIOUS EVENT

AH3.1 For the Pee wee Division, the Wrap-A-Round Format is utilized instead of double knock-out format. In the Final Standings, those teams that played only in the Winner's Bracket will receive the highest rankings over teams in the Loser's Bracket. The Gold Medalist is ranked 1st, and the Silver Medalist is ranked 2nd. Since there are two Bronze Medalist Winners, those two teams will utilize the tie-breaker format to determine 3rd and 4th rankings. Any other teams eliminated from play in the Winner's Bracket will be seeded next based on the tie-breaker format.

The next highest ranked team after the Winner's Bracket will be the Consolation Champion, followed by Consolation Finalist, and so on based on rounds of advancement based on the tie-breaker format.

AH3.2 For the Bantam, Midget and Juvenile Divisions, the double knock-out Format is utilized. In the Final Standings, the seeding ranking will be the Gold Medalist ranked 1st, the Silver Medalist ranked 2nd, and the Bronze Medalist ranked 3rd. The teams advancing the furthest number of rounds will have the next highest seeding ranking based on the tie-breaker format.

AH4.0 SEEDING TIE-BREAKER FORMAT

AH4.1 In situations where at least two teams are tied at the same level of finish in the previous event, then the following tie-breaker format will be utilized starting with the highest precedent.

- a) Highest number of total points based on 2 points for win, and one point for tie. The comparison of points must be based on the same number of games played, otherwise use average with total points divided by total games played;
- b) The highest plus/minus of the teams;
- c) The fewest total goals scored against team. The comparison of goals must be based on the same number of games played, otherwise use average with total goals divided by total games played;
- d) The highest total goals scored for team. The comparison of goals must be based on the same number of games played, otherwise use average with total goals divided by total games played;
- e) In the team's elimination game (second loss), the higher ranking will be the team where the opponent's winning goal was the latest time in the game;
- f) In the team's first loss, the higher ranking will be the team where the opponent's winning goal was the latest time in the game.

AH5.0 ADDITION AND DELETION OF TEAMS

- AH5.1 If a previous team changes their team name, but still retains a nucleus of the previous team's roster; then that team will retain their seeding ranking.
- AH5.2 If there is a new team entering the event, then that team will be ranked the lowest of all teams. If more than one new team, then their seeding ranking at the bottom of the seeding will be based on the best results of other teams from their Region. The Region with a team with the highest seeding ranking will result in the new team at the bottom of the seeding ranking taking a higher ranking. Two new teams from the same Region will take on the higher ranking based on closest other team from Region.
- AH5.3 If any previous team(s) do not enter a team in the event, then the teams below them in the seeding ranking move up in rankings to eliminate any voids.
